RACEAMERICA

● Title: **Timer to Display RS232 Serial Interconnect Cable**

● Date: **02/19/03**

RaceAmerica Product Part Numbers: 06-X025, 06-X050, 06-X100, 06-X200

Product Application: RaceAmerica Timer to Digital Display cables are offered in a variety of cable lengths made with heavy duty blue jacket 8-conductor CAT5e patch cable for easy color coding with Timer and Display connectors. Generally, RS232 communications should not exceed 50ft. RaceAmerica uses high quality RS232 line drivers and receiver IC's enabling communications to 200ft. This cable is reversible between the Timer and Display.
